Atty. Docket 21982

4

LISTING OF CLAIMS

1. (currently amended) An aqueous cleaning composition for hard surfaces,
~~comprising~~consisting of:

- a) from about 0.01% to about 2% by weight of an inorganic acid;
- b) from about 0.01% to about 3% by weight of a surfactant; ~~and~~
- c) from about 1% to about 10% by weight of a lower alcohol solvent
selected from the group consisting of methanol, ethanol, propanol, isopropanol,
butanol, t-butanol, pentanol, and combinations thereof;
- d) optionally an organic acid; and
- e) optionally a builder.

2. (previously presented) The aqueous cleaning composition of claim 1, wherein:

- a) the inorganic acid is selected from the group consisting of hydrochloric acid, sulfuric acid, sulfamic acid, sulfurous acid, persulfuric acid, phosphoric acid, nitrous acid, sodium bisulfate, potassium bisulfate and combinations thereof; and
- b) the surfactant is selected from the group consisting of sodium dodecylbenzene sulfonate, dodecylbenzene sulfonate, dodecylbenzene sulfonic acid, sodium laurylbenzene sulfonate, branched chain alkylaryl sulfonates, sodium xylene sulfonate, olefin sulfonates, hydroxyl C₁₀ to C₂₀ alkyl sulfonates, alkane sulfonates, alpha sulfo methyl esters, alkyl polyglucosides, alcohol sulfates, alcohol ether sulfates, lauryl sarcosinate, fatty acid salts, alcohol ethoxylates, alkylphenol ethoxylates, lauryl amine oxide, nonylphenol ethoxylates, octylphenol ethoxylates, coconut diethanolamide, coconut-based surfactants, dialkyl dimethyl ammonium chlorides, alkyl dimethyl ethylbenzyl ammonium chlorides, hexadecyl trimethyl ammonium bromide, quaternary ammonium chlorides, alkylbetaine, N-carboxyethyl-N-alkylamido-ethylglycinate, N-alkylamido-propyl-N-dimethyl-aminoxide and combinations thereof.

3. (original) The aqueous cleaning composition of claim 2, wherein the inorganic acid is sulfamic acid.

App. No. 10/666,706
Atty. Docket 21982

5

4. (original) The aqueous cleaning composition of claim 2, wherein the concentration of the inorganic acid is from about 0.05% to about 1%.
5. (canceled)
6. (original) The aqueous cleaning composition of claim 2, wherein the concentration of surfactant is from about 0.05% to about 2%.
7. (original) The aqueous cleaning composition of claim 2, wherein the concentration of surfactant is from about 0.1% to about 1%.
8. (original) The aqueous cleaning composition of claim 2, wherein the coconut-based surfactant is N,N-bis(hydroxyethyl)-cocoamide.
9. (previously presented) The aqueous cleaning composition of claim 1, wherein the lower alcohol solvent is selected from the group consisting of ethanol, propanol, isopropanol and combinations thereof.
10. (original) The aqueous cleaning composition of claim 2, wherein the concentration of lower alcohol solvent is from about 1.5% to about 5%.
11. (original) The aqueous cleaning composition of claim 2, wherein the concentration of lower alcohol solvent is from about 2% to about 3%.
12. (canceled)
13. (currently amended) The aqueous cleaning composition of claim ~~12~~1, wherein the organic acid is selected from the group consisting of citric acid, acetic acid, hydroxyacetic acid, oxalic acid, maleic acid and combinations thereof.
14. (original) The aqueous cleaning composition of claim 13, wherein the organic acid is hydroxyacetic acid.

App. No. 10/666,706
Atty. Docket 21982

6

15. (original) The aqueous cleaning composition of claim 13, wherein the concentration of the organic acid is from about 0.002% to about 0.1%.

16. (canceled)

17. (currently amended) The aqueous cleaning composition of claim ~~16~~1, wherein the builder is selected from the group consisting of sodium carbonate, sodium EDTA, sodium sulfate, sodium silicate, sodium citrate, sodium chloride, monoethanolamine, monoethanolammonium, sodium tripolyphosphate, sodium pyrophosphate and combinations thereof.

18. (original) The aqueous cleaning composition of claim 17, wherein the builder is selected from the group consisting of monoethanolamine, monoethanolammonium and combinations thereof.

19. (original) The aqueous cleaning composition of claim 17, wherein the concentration of the builder is from about 0.005% to about 1%.
